Erasmus+ accreditation

Mobility to Seville, September 2023.

My Erasmus+ experience

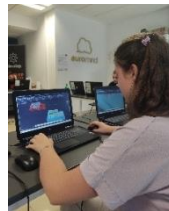

Building and architectural technician

Hello! My name is Dora. Currently I am in my third year. More specifically my major is architectural technician. I really enjoyed my stay here! Sevilla is a beautiful city and I had so much fun exploring it. The culture, architecture, people and everything was so stunning here. My internship and mentors really helped me learn new things and adapt in new surroundings. I learned new commands in AutoCAD, which are going to help me in my further education and further in my future career. I am thankful for the opportunity I was given to participate in Erasmus+ program. I will never forget the experience and the joy I felt while being here!

Dora Kasunić

Hello! My name is Hanna Skolan.

Currently I am finishing my third year of studying. I study Architectural technician. I enjoyed my stay here. I really like the architecture in Seville, I like the Arabic style that is noticeable in most of the buildings. I like the Portuguese Consulate the most because we notice the Mediterranean style of architecture. I like Spanish culture and people. Practice is very interesting. The tasks are quite accessible and interesting for us. I learned a lot about

Hello, my name is Tino Lapov and I am a construction. I am enjoying on internship, the tasks are interesting and easily accomplished. Our mentor is nice and approachable, in all work that we do he is also funny. We are working on projects about bioclimatic houses. Sevilla is beautiful, in Seville I learnt a lot about culture, language, people... We visited so many historical buildings and parks, they are stunning. I recommend you Erasmus+ project because you can learn new skills about job, when you come back to your class or job you'll know more about it than others. You can see other

I think that everyone should experience this project at least once in their life because this kind of experience is really beautiful because we learn so many new things related to our profession in a more fun way than on school.</p> | <p>ways that you can do some tasks especially in AutoCAD. It is an amazing experience.</p> <p style="text-align: right;">Tino Lapov</p> |
| <p>Hello, My name is Luka. I study for architectural technician. I enjoy my internship here and Sevilla is very beautiful city. Now I learn about 3D modelling and more about AutoCad, also our mentor is very funny and kind. Our project is to make bioclimatic house in 2D and 3D in AutoCad. This will improve my skills and also others skills. I personally think that this program will improves anyone's skills. Sevilla is full of buildings that can help us to create and also learn more about our job</p> | <p>Hi, my name is Anja Rušnov. I am currently finishing the third year of high school, to become an architectural. I really enjoy my stay here. The city of Seville is beautiful, I am enchanted by its beauty. the different culture, people, architecture and everything else here is wonderful, and I would love to come back here one day. During my internship, I improved my English in my profession. I learned new things in autocade that I had not yet reached in my studies at school, therefore I progressed in my work in that program and a lot of things are clearer to</p> | <p>Hi! My name is Tea. I am currently in the third grade. My major is architectural technician. I loved being here. I learned new commands in AutoCAD, which will come in handy in my further education. They are all accessible here and they explained everything to us nicely. Sevilla is beautiful, I really liked their architecture and culture and I hope to visit it again. I think that everyone who has the opportunity should apply for the Erasmus+ program. This is an experience I will never</p> |

Hanna Skolan,

in future. I would like to come here again. I give this program a thumb up.

Luka Lukežić

me. I also met a lot of new people and made friends.

Why should someone apply and be part of Erasmus+? This kind of experience is unforgettable and most of us would not have the opportunity to visit a city like this. They will teach you a lot and have fun along the way. If you are thinking about applying for this program, don't think, apply! I will return home with an excellent experience in my life.

Anja Rušnov

forget. I leave with acquired new knowledge, new adventures and memories.

Tea Babić

Hello my name is Gita, my major is Architectural technician. I am on my 3rd year. At internship i like that all the tasks are easily accomplished, and our mentor is really nice and always ready to help. We use Autocad which in I developed many new skills since i came here, we also go in the city to learn about the architecture here. I learned many new things about Spanish culture and way of living. I think that everyone who

Hello, my name is Dorian. I'm in my 3rd year of studying to be Architectural technician. Here in Spain, Sevilla is very beautiful starting from people to buildings and the culture. We have been visiting a bunch of old cultural buildings, parks and other places. In my eyes everything is beautiful and its worth coming here. I've made some new friends while being here so I also improved my communication skills. On our practise we learn new things about program AutoCAD that we didn't learn in school yet for instance being able to use AutoCAD 3D modelling and a bunch of

Hello, my name is Mirko Buturajac and I am a construction technician. My stay in Seville for the internship is very good, from the residence where we met other students from the project and to the place where we have our internship, to the city centre and all the beautiful monuments we had seen so far. At the internship I've learned how to 3D model and I'm happy about it as I got it almost immediately. Our tutors are very nice and cheerful people and they are just great. Also I learned a little bit of Spanish in my stay here. I got used to the bus routes and can now navigate

has a chance should apply to Erasmus because it is a really fun way to learn new things.

Gita Krnežić

more stuff. This internship is very helpful because its teaching me things that I will need later in life. I would recommend to everyone to be a part of Erasmus program because of skills you learn here benefit you later in life and you have a beautiful experience somewhere else than in your country.

Dorian Maoduš

easily through Seville while we're anywhere. Anyone who gets an offer for an Erasmus+ project should apply for it and hope for the best because it is a nice way of learning new things and getting the experience that you can't get that easily on your own. Anyone who likes traveling will love it and the ones that don't will start to like it just like me.

Mirko Buturajac

Hello, my name is Bartol Bosanac and I'm a construction technician. I'm enjoying my internship, tasks are easy to accomplish and mentor is nice and approachable. I'm learning how to design houses in 3D in AutoCAD. The city is very nice and beautiful and it has a lot of history behind it. We visited a lot of historic buildings and modern architecture. I especially liked how I was able to learn how to draw in 3D so fast. Most important I like that I'm with my friends and to have an opportunity to work in other countries. I would recommend this project because it helps you in your profession and get the opportunity to go outside of your country.

Bartol Bosanac

Hello, my name is Dino. Currently I am in my third year of studying the construction technician. I really enjoyed my internship and the town Sevilla. Sevilla have beautiful culture. I really like the town and absolutely I will come back one day. On internship we do basics tasks in AutoCAD in 3D before we make our bioclimatic house in AutoCAD. Tutors is really nice and they always help when we need it. I really suggest this project because you can learn a lot of new things and make new friendships. With this project you will also make new skills which will improve your efficiency in school and on work.

Hello, my name is Elena. I am in my third year in MIOŠ Karlovac. My major is architectural technician. Our internship is really nice. We have good and funny mentors. We learned how to draw in 3D in AutoCAD and also we learned about bioclimatic houses. Sevilla is a really beautiful city. It has a lot of historical buildings. The most beautiful place in Sevilla is definitely "Plaza de España". I think that Erasmus is a great opportunity to learn about new cultures and meet new people.
